

# Van den Hul

## Our Criteria:

**We realise that our products are not the cheapest in the world, but we think that the following points are more important than just the price:**

1. The durability of our products.
2. An optimal protection against environmental influences.
3. The application of "Green" raw materials in all aspects.
4. The true wish to manufacture products for music lovers.
5. We are not afraid to take another route to find the best solution possible.
6. Constant research and development to improve existing products.  
Our money is spent on R&D and not on marketing or image building.
7. Intensive contacts with the professional world also show us the directions to go.
8. All our products originate from the highest technical levels available in Europe.
